

## THE TRUSTED CAMPUS SECURITY ALERT SYSTEM

- ✓ Lockdown sooner
- ✓ Security sooner
- ✓ Assistance sooner
- ✓ Peace-of-mind with a push of a button

**Badge Messenger was designed by a teacher, for teachers.**

Your administration faculty, and staff can have instant access to each other when support is needed — whether everyday occurrences or emergencies.

### SMALL BADGE. BIG SECURITY.

It's small and lightweight but offers big security, and peace-of-mind for teachers, staff, students and parents. This two-way communications tool is worn on a lanyard and has a place to conveniently tuck staff ID cards. It uses LoRa, a dependable, uninterrupted Bluetooth technology that has a range of five miles.

Simply press a button and an alert for assistance is sent quietly, so situations don't escalate or generate more anxiety. Messages are received and responded to via a Carel Command Center centrally located in your school's office.

### BADGE MESSENGER HAS FOUR MAIN ASSISTANCE BUTTONS AND OFFERS CUSTOMIZED MESSAGING.

#### Help

Press the bird and campus staff are notified you need help and your room

#### Maintenance

Request clean up of a mess or maintenance

#### Security

Press the shield and security is alerted of duress situation at your classroom location

#### Medical

Press of the heart you are getting medical alert that services are needed at your classroom

*Teachers like the direct communication with the office without having to leave a situation, get to the phone to call or send a student. They feel so much safer. With a push of a single button, the front office knows they need something and they are there.*

- **Bonnie Van Heel**, Principal

## THIS BADGE HAS YOUR SCHOOL'S BACK

Protect your school's staff & students with **Badge Messenger**. Badge Messenger is Alyssa's Law Compliant, easy to install and simple for staff to use.
